

Early Treatment is Critical

Abnormal conditions such as:

- ADD / ADHD
- LOWER IQ
- CHRONIC ALLERGIES
- AGGRESSIVE BEHAVIOR
- MOUTH BREATHING
- SWOLLEN ADENOIDS & TONSILS
- DAYTIME DROWSINESS
- CROOKED TEETH
- RESTLESS SLEEP
- BEDWETTING
- NIGHTMARES
- DARK CIRCLES UNDER THE EYES
- SNORING
- IRRITABILITY
- FREQUENT HEADACHES
- ARRESTED GROWTH
- LOW GRADES IN MATH & SPELLING

If children are left untreated, little can be done to correct these symptoms as adults.
